SUBJ: RESERVE WORKFORCE - MEMBERS WITH MORE THAN 30 YEARS OF SERVICE

A. MILITARY SEPARATIONS, COMDTINST 1000.4 (SERIES)

1. In accordance with articles 10.A.4.c and 10.B.6 of ref. A, reserve Chief Warrant Officers (CWOs) and reserve enlisted members shall be removed from an active status after completion of 30 years total time in service (TIS). Total TIS is computed using a member's pay entry base date.

2. This message details reserve personnel who will complete 30 years TIS on or before 30 September 2025 as well as those reserve personnel previously approved for 30-year TIS waivers that expire on or before 30 September 2025. These members will receive a reserve component category change to the Inactive Status List (ISL) effective the day after they complete 30 years TIS or the date their current waiver expires, unless they submit a request for transfer to a retired status. Retirement transfer requests shall be submitted to CG PSC-RPM on form CG-2055A, through the chain of command, no less than 100 days and up to one year prior to the requested retirement date. The latest version of the CG-2055A may be found on the following CG PPC website: <https://www.dcms.uscg.mil/ppc/pd/forms/>. The requested retirement date must not exceed the first of the month following attainment of the respective effective date. Reservists who have received CG PSC-RPM approved waivers to remain in an active status beyond 30 September 2025, and those with approved retirement requests effective on or before their 30-year TIS mark, are not listed below.

3. Anticipated SELRES vacancies based upon separation of the above members will become part of the AY25 assignment cycle.

4. In accordance with article 10.G.1 of ref. A, members of the Ready Reserve may have their eligibility age for receipt of retired pay reduced below age 60, but not less than age 50, by three months for each aggregate of 90 days the member performs qualifying active duty on or after 28 January 2008.

Members are encouraged to visit the CG PPC (ADV) website to review guidance on how to calculate early RET-1 transfer eligibility: <https://www.dcms.uscg.mil/ppc/adv/points/>. To request an early retirement calculation, members should select both RET-2 and Early RET-1 options in block 8 of the CG-2055A. Upon receipt of early RET-1 calculations, members from the CG PSC-RPM-1 Status section will forward early RET-1 calculations to the unit for further discussion on eligibility and transfer options.

5. Units identifying a critical Service need may submit a waiver request to CG PSC-RPM to retain their member identified above in an active status beyond the identified date. The waiver request must be in standard CG memo format, include the exact dates requested, a description of the specific Service need, the transition plan to alleviate the need for a waiver at the end of the requested period, steps taken to identify candidates not requiring a waiver, and a completed CG-2055A in the event the request is denied to alleviate any delay in retirement processing. Submit complete waiver requests 100 days prior to the member completing 30 years of TIS to: HQS-SMB-CGPSC-RPM-1-WAIVER@uscg.mil.

6. POC for this message is CW03 Arnold Z. Uhrina via email at Arnold.Z.Uhrina@uscg.mil or via phone at (202) 795-6514.

7. CAPT T. E. Fryar, Chief, CG PSC-RPM, sends.
