Overview of the Recall/ Rehire Process from Retirement

Introduction This section provides the information for all the steps/stages involved in recalling (re hiring) a member back into DA from retirement.

Information Because the process is not automated within DA, the key to accurate and timely recalling of a retiree is 100% dependent on constant communication between OPM/RPM, PPC and the P&A/SPO.

Procedures See below.

Stage	Who Does It	What Happens
1	Member	Submits an official request via CG memo.
2	PSC	Will panel the request for approval.
3	P&A Unit	<ul style="list-style-type: none"> • If approved, the member will be contacted, and PCS orders will be generated in DA. • Will create a ticket, with the memo attached to PPC for reinstatement. • Sample of PCS Rehire orders: <ul style="list-style-type: none"> – Action = XFR – Reason Code = PCS  <p>The screenshot shows a 'PCS Basic Information' form with the following fields: Current Department (049204), Current Location Code (VA1740), Current Position Number (00062025), Current Job Code (000094), Action (XFR), Reason Code (PCS), Mutual Code (Standard), and Rotation Dt. The 'Action' and 'Reason Code' fields are highlighted with a red box.</p>
4	PPC	<ul style="list-style-type: none"> • Will then create the Reserve AD Orders. PPC ADV branch will create a Reinstatement Job Row which creates an Active account (unsuspends the account).
5	Member	<ul style="list-style-type: none"> • Reports for duty. Notifies the Supervisor and the Unit Level Admin Staff of arrival on the date of arrival. • Completes the check-in paperwork. • Updates their mailing/e-mail address and direct deposit information in DA (if applicable). <p>NOTE: Failure to notify the Supervisor and/or Unit Level Admin Staff you have reported for duty and/or not submitting required worksheets will result in delay of payments.</p>
