Questions Questions concerning IDT subsistence allowance should be addressed to HQS-DG-LST-CG-1311@uscg.mil.

Background Errors in assignment of IDT meal eligibility for enlisted SELRES members have previously caused overpayments and underpayments for Reservists.

In accordance with references (a) and (c), an enlisted member of the Reserve Component (RC) may receive rations-in-kind (RIK), part thereof, or a cash allowance in lieu of a government provided meal when the member's paid IDT drill totals at least 8 hours in a calendar day.

Reserve members, regardless of their duty status, with or without pay, must pay for all government provided meals they consume.

Member in a Travel Status In accordance with reference (f), Reserve members are not authorized an IDT subsistence allowance for periods of travel to and from their drill site or whenever entitled to a meal per diem allowance in an IDT travel status.

Officers In accordance with references (c) and (f), officers are not entitled to an IDT subsistence allowance.

Single IDT Drills In accordance with references (c) and (f), Reserve members who perform a single IDT drill are not entitled to a government provided meal or a subsistence allowance.
