

**FLAG VOICE #524**  
**2020 PSC Season Vehicle Shipping**  
**05 June 2020**

---

To allow flexibility in risk based decisions in PCS moves, the Coast Guard has temporarily adjusted the policy regarding shipping personal vehicles on government orders to and from OCONUS. As announced in ALCOAST 221/20:

- The current Coast Guard policy which designates authorized Port of Embarkation (POE), Port of Debarkation (POD), and Vehicle Processing Centers (VPCs) as the closest to service member's old and new permanent duty station is suspended until 31 December 2020.
- Members may utilize the POE/POD/VPC of their choosing for the government funded shipping of personal vehicles to and from OCONUS as long as that facility is the closest to their old PDS, new PDS, or along the direct route between the two.
- The PCS Assist team, along with my staff in CG-13, stand ready to help our members with any PCS related questions they may have.

This temporary change is meant to allow for the safest travel possible. Leaders are encouraged to help their members create the safest plans possible for this year's PCS Season.
