

The
Reserve
Chief Warrant Officer Assignment
Guide

Assignment Year 2021 (AY21)

CG PSC-RPM
August 2020

Welcome!

The 2021 assignment season is underway!

This document contains the basic principles of the Chief Warrant Officer (CWO) assignment process. The information in this guide is of equal value to CWOs anticipating assignments, as well as commands, and mentors. We have created this guide to:

- explain the Reserve assignment process;
- disseminate the rules of engagement; and
- manage expectations.

Who We Are

The 2021 Reserve Assignment Team within CG PSC's Reserve Personnel Management Division (PSC-RPM) consists of:

- LCDR Cecilia Williams, Reserve Assignments Branch Chief.
- F&S3 William Lorenzo, Centralized Assignment Coordinator and Assignment Officer (AO) for CWO Assignments.

Key Elements

The key elements are the Chief Warrant Officer ALCGRSV Kickoff Message, Shopping List, and e-resume.

Kickoff Message

The ALCGRSV Kickoff Message announces the Assignment Year (AY) 2021 Chief Warrant Officer assignment season and provides important guidelines and information for Reserve CWOs competing for assignment, command cadres, supervisors, and the Reserve CWO corps at large. The message also includes the AY21 Chief Warrant Officer Plan of Action and Milestones; which stipulates key requirements and deadlines in the assignment season.

In addition, the Kickoff Message also provides guidance on submitting Command Concerns, which is an opportunity for commands to provide the AO their assignment needs. Failure

to submit Command Concerns may result in gapped billets. Senior Reserve Officers (SROs) and Reserve Force Readiness Staffs (RFRS) continue to be a valuable resource in aiding unit commanders in maximizing their Reserve force capability, which may include PAL validation and Command Concerns. PSC-RPM encourages early and active engagement with unit stakeholders in an effort to minimize billet gaps.

The Shopping List

The Chief Warrant Officer Shopping List consists of Reserve CWO billets that are expected to be filled in AY21.

A “**Potential**” Shopping List will be available in DA on/about 1 September 2020, which will include:

- billets with incumbents who have a 2021 rotation date;
- billets occupied by CWOs with approved separation requests on file; and
- vacant positions.

In the AY Kickoff message, we ask commands to carefully review the “**Potential**” Shopping List and **provide Command Concerns by the deadline stipulated on the message**. Receiving the Command Concerns by the deadline provides the AOs the opportunity to make well informed decisions on assignments.

In November the “**Shopping List**” will be released via ALCGRSV and will also be available on the PSC-RPM website. The intent of the “**Shopping List**” is to provide you the opportunity to consider new alternatives. Please don’t subject your AO or the incumbent in an advertised billet with questions regarding why the billet will be vacant or what is happening with the incumbent.

Contacting Commands or Incumbents

As you review the Shopping List, you may begin to create your own list of preferred billets. In this case, you’ll likely want to get a better read for a particular command and the work involved. Contacting the chain of command that owns the billet or the current incumbent may provide you a better understanding of job expectations and tasks associated with the billet. It is important to note that the billet title may not

accurately reflect the actual job description or task requirements.

The E-resume

The e-resume is the primary method of communicating your assignment preferences to your AO. Please do not view submitting your e-resume as an entering position to begin an extensive and iterative dialog. However, we strongly recommend you share your draft e-resume with your family and discuss your goals and objectives with them before submitting your final e-resume.

Note - the current version of DA does not notify an endorser of an endorsement request. For that reason, you should notify your command when you submit an e-resume that requires their endorsement (i.e., for an extension/short tour request). This is to ensure that your e-resume endorsement is completed on time.

The current version of DA does not allow late e-resume submission. ***Your e-resume must be submitted to PSCRPM by 11 January 2021. It is critically important that the e-resume submission deadline is met.*** If you miss the deadline, you must let your AO know immediately via email. You may be provided the opportunity to submit your assignment preferences on form CG2002.

E-resume Craftsmanship

A well-crafted e-resume allows for assignment flexibility and acknowledges possible assignment outcomes.

It is not recommended to submit an e-resume that only lists:

- one or two billets;
- an extension; or
- billets in a single geographic area.

An e-resume that reflects the above indicates that you haven't considered the possibility of not being assigned to those commands. In other words, a very narrow e-resume conveys nearly the very same message as a blank e-resume. Thus, we will assume you will be equally thrilled with any assignment if we are unable to offer any of the few preferences you provided.

What is recommended is submitting a broad e-resume that:

- communicates your preferences in priority; and
- addresses alternatives that you believe are appropriate based on your background and experience.

Additional things to note:

- Develop an e-resume that is concise.
- Situations involving exceptional personal requirements (i.e. co-locations, special needs, etc.), will be handled on a case-by-case basis to balance the needs of the Coast Guard and the individual.
- If you are married to an active duty service member, ensure that “Dual Military” is indicated at the top of the narrative section of your e-resume.
- A command endorsement by the unit Commanding Officer or his/her designee is required for all reserve CWOs requesting tour extensions or early rotations.
- When requesting an extension, always include other assignment options in the likely event the extension is not granted.
- E-resumes submitted with fewer than three assignment choices may result in assignment to positions other than those requested or the Individual Ready Reserve (IRR), due to the limited choices of assignments provided.

The need to develop a well-crafted e-resume and ensure that it is submitted prior to the deadline cannot be emphasized enough. In addition, you must inform your AO via email each time your e-resume has been updated. This is critical since your AO will not automatically be notified by DA.

Information in DA

The information available in DA is what your AO will utilize for assignment purposes. Therefore, it is important that your information in DA is current and accurate, such as:

- personal contact information,
- academic degree(s),
- security clearance, and
- other pertinent information.

Extensions and Early Rotations

A request for extension in your current billet requires a command endorsement and is viewed by PSC-RPM as one assignment preference on an e-resume and will be considered along with your other e-resume selections. The likelihood that you will be approved for extension depends on several factors. In some cases Service need may be best met by extending you in a billet, while other times the Service need is best met by transferring you to further enhance your career and affording others the same career development opportunity that you had been given. Extensions are considered “orders” and if you are granted an extension, it will be authorized for only one additional year.

A request for early rotation also requires a command endorsement. The purpose of the command endorsement is not to give an opinion of your suitability for the requested billet(s), but rather to address the effect of your early departure on the unit’s continuity or the overall skill/experience level of the unit’s staff. “Conditional” positive endorsements (e.g., “I support early rotation for billet X but not for billet Y”) are not appropriate. Early rotations most often occur when Service need cannot be met using CWOs that are tour complete. In keeping with the Commandant’s vision, “Service to Nation,” our general position is to NOT rotate members early unless the needs of the Service clearly dictate otherwise.

Geographic Diversity

Geographic diversity is a career enhancing factor that you should take into consideration when making assignment decisions. For example, if you have been at the same unit throughout your enlisted tours; **you should not expect to stay there.**

Reasonable Commuting

Every effort will be made to comply with the Reserve

Distance (RCD)

Policy Manual, COMDTINST M1001.28 (series) regarding RCD.

As officers promote, opportunities for assignments within RCD become limited based on availability and positions being geographically dispersed. Due to these circumstances, RCD may not be a primary consideration in the assignment process. Incumbents who agree to an assignment outside RCD will be expected to accommodate individual travel requirements.

A member's decision to accept orders beyond RCD is purely voluntary. Members who voluntarily accept orders beyond RCD shall include the following statement in their e-resume: "I, (rank and name) on (date), understand the Reasonable Commuting Distance (RCD) policy stipulated in COMDTINST M1001.28, and will voluntarily accept orders beyond RCD."

Co-Location

Unlike PSC-OPM's active duty assignment process, there is no specific co-location policy governing Reserve assignments. However, if you are married to a military member, ensure that your AO is aware of the situation by indicating "Dual Military" at the top of the member comments section of your e-resume. In such cases, your AO will make every attempt to provide suitable recommendations.

Residing Outside the U.S.

Please refer to chapter 5 of the Reserve Policy Manual, COMDTINST M1001.28 (series), for policy on remaining in a SELRES status while residing outside the U.S., its territories or possessions.

The RPM Process

Equipped with the Shopping List and your e-resume, PSC-RPM will develop assignment slates. We also start developing a list (candidate pool) for each billet; noting the names of CWOs who requested particular billets on their e-resume, as well as, those who may be most competitive based on their assignment history and

background. If geographic stability is a special consideration for you, make sure that your AO is aware; with the understanding that this may make a difference between receiving a paid assignment and being placed in an IRR status.

Who's in Play?

The primary candidate pool consists of CWOs who:

- are tour complete,
- will change Reserve Component Category (RCC) to SELRES,
- are in reprogrammed positions,
- are projected to be released from active duty (including CWOs who are serving on long-term ADOS and EAD), and
- are in billets with more than one member assigned.

Our intent is to transfer only members who are tour complete, unless Service needs dictate otherwise. If you are in a billet that is being reprogrammed, you will normally remain until you are tour complete unless you request an early transfer or service needs dictate reassignment to expedite the reprogramming.

Assignment Considerations

The assignment process will take into consideration when a member has completed an arduous assignment (i.e., duty in hard-to-fill assignments/geographic locations, lengthy involuntary recalls). It will be a factor considered along with other factors, such as: Service needs, career progression, performance, skill-sets, and the member's personal desires.

There is no formal Humanitarian Assignments program for Reserve personnel. Accordingly, situations that involve severe family hardships would fall under special considerations and will be viewed as yet another factor in any assignment.

Hierarchy of Assignments

Generally, assignments are considered "top down" to ensure the most robust candidate pools of CWOs are considered for the highest priority billets. The missions and deployable nature of Deployable Specialized Forces (DSF) units (Port Security Units, Strike Teams) require these units to be staffed to the maximum extent possible.

Members residing within RCD of DSF units should expect one or more assignments to these units during their career. Following DSF assignments, priority is given to operational commands followed by staff assignments. Careful consideration is given to match members to billets so that Service needs, unit needs, professional development and member desires are maximized. Note - your AO will attempt to fill each vacant billet, including billets that may not be most desired.

Over-billeting

On a limited basis, CWOs may be assigned in an over-billet status at a command where another CWO already occupies the position to which the member will be assigned. This is a rare occurrence and is based on a variety of reasons including Service need, unit training capacity, and other pertinent factors.

Long-term Active Duty

Long-term active duty is defined as active duty other than training of more than 180 consecutive days. Reserve CWOs contemplating long-term ADOS shall coordinate with their AO early in the process. Requests for active duty must be approved by your parent command and you must notify your AO when you accept Long-Term ADOS orders.

By policy, SELRES members who serve on Long-Term (Contingency or Non-contingency) ADOS, are removed from their SELRES position while in this active duty status. Regardless of the date of termination of their Long-Term Non-Contingency ADOS orders in 2020, Reserve CWOs desiring a SELRES position upon release from active duty (RELAD) must submit an e-resume in order to compete for a SELRES assignment.

Members involuntarily recalled under Title 10 U.S.C. § 12302 (also referred to as “Involuntary T10” Long-Term Contingency ADOS) or serve on Short-Term ADOS shall continue to encumber the SELRES position assigned at the time of recall. Once RELAD, these members return to their SELRES billet, unless otherwise subject to reassignment.

In general, members serving on Long-Term Non Contingency ADOS orders that terminate at any time during 2021, or are otherwise subject to reassignment upon RELAD in 2021, are encouraged to apply for assignment. Members who do not apply for assignment should expect a status change to the IRR and may participate in the AY22 assignment cycle, unless the member competes successfully for an off-season assignment.

Extended Active Duty (EAD)

Reserve CWOs on EAD are considered “active duty” officers for purposes of assignments and PSC-OPM serves as their AO while on EAD. Reserve CWOs who expect their EAD contracts to expire at any time in 2021 should submit an e-resume to PSC-RPM to compete for a SELRES assignment. Members who do not apply for assignment should expect a status change to the IRR and may participate in the AY22 assignment cycle.

Additionally, CWOs considering EAD orders shall coordinate with their reserve AO early in the process.

Requests for active duty must be approved by your parent command and you must notify your reserve AO when you accept EAD orders.

By approximately late March or early April we will have a sense of the billets for which you may be most competitive.

One caution: saying you are “competitive” is not an indication of what may be the final assignment outcome.

Being competitive normally means you are among the pool of candidates for a position(s). Remember, we are providing the same information to your peers and information on who is part of the candidate pool will not be disclosed.

PCS Orders

We will make every effort to issue PCS orders by the end of May. The majority of PCS orders are issued with the following paragraph, “Firm reporting date to be coordinated between transferring and receiving commands, DIRLAUTH.”

Due to DA requiring an estimated report date to be entered in order to cut orders, you can expect a default report date of 1 October. However, commands are authorized to arrange exact reporting dates with you, generally 90 days before or after the report date on your orders. This is important when changes in command are involved or where an OER end-of-period is affected.

Retirement In Lieu of Orders (RILO) and Separation In Lieu of Orders (SILO)

Members may decide to RILO instead of accept their orders. Therefore, it is important to understand the RILO parameters – and the difference between the active duty RILO process and the Reserve RILO process.

- Unlike active duty RILO, which is strictly a request for retirement, the Reserve RILO encompasses: (1) RET-1 retirement request status – Reserve members who have completed the requisite qualifying years of creditable service, and applied for and are receiving non-regular retired pay at, or after age 60; or (2) RET-2 requirement request status – Reserve members who have completed the requisite qualifying years of service for non-regular retired pay and are not yet 60 years of age or have not applied for non-regular retirement pay.
- If you have 20 years of service, have no obligated service requirements, and prefer to retire instead of accept orders, your request will normally be granted.

All Reserve RILOs must take place no later than 1 October. You can ask to retire earlier if desired. If you prefer a later retirement date (perhaps to be eligible for a longevity pay raise or to better meet your personal needs), then you need to submit your voluntary retirement request as early as possible; so that PSC-RPM is afforded the time required to shop and fill your billet.

Another option is SILO. Members who do not have a military service obligation to fulfill may decide to separate from the Service instead of accept their orders.

Each of these options has varying career impacts. We understand that your Reserve career may not be your primary

focus. As such, it is in your best interest to contact your AO and get a complete understanding of your options and possible consequences.

Declining Orders and Status Change

When making assignment decisions, AOs consider many factors including:

- Service needs;
- Command Concerns;
- career development;
- member's desires;
- RCD; and
- the limited number of SELRES positions in certain geographical locations.

In accordance with the Reserve Policy Manual, COMDTINST M1001.28 (series), paragraph 5.A.10, members who decline orders are subject to a status change to the ISL, IRR or may request retirement or separation as appropriate.

Members who do not successfully compete for assignment in AY21 can expect a status change to the IRR and may compete for assignment in AY22. Members who fail to meet the e-resume deadline can expect a status change to the IRR and may compete for assignment in AY22.

Off-Season Assignments

Although the vast majority of CWO assignments are handled through the assignment season, each year circumstances may arise that require off-season assignment decisions.

When we become aware of an upcoming off-season vacancy, we advertise the billet for assignment during the AY21 off-season.

Off-Season Retirements

Per chapter 8 of the Reserve Policy Manual, COMDTINST M1001.28 (series), CWOs may submit a request for retirement up to one year in advance; however, the request must be received by PSC-RPM at least 100 days prior to the requested retirement date. We request a minimum of six months and no more than twelve months in advance of the desired transfer to

RET-1 or RET-2. Retirement dates of June through October are within the reasonable parameters to afford commands a minimum gap. Earlier requests typically will result in an extended gap. Later requests normally will result in double encumbering the billet.

Off-season Reserve CWO retirements can cause churn and impact unit and Service readiness.

Requests received with voluntary retirement dates of June through October will normally be approved if made within the above parameters. However, Service need or circumstances at a unit may not permit approval of the requested date. One important consideration is our ability to backfill the retiring CWO's billet. There are usually no easy backfill options when a vacancy occurs outside the annual assignment process. For that reason, command endorsements on retirement requests must address backfill requirements. Requests for retirement made outside of the assignment process will likely be disapproved if the command is not willing to absorb a gap.

We strongly recommend you plan your retirement to coincide with the assignment season so we have the best opportunity to approve your desired date and backfill your billet.

Conclusion

We hope you find this information useful in understanding the Reserve CWO assignment process. We recognize how important the outcomes of assignment decisions are to each individual and to the Service. We also hope our messages, PSC-RPM website, and correspondences will keep you well informed as we seek to meet Service need by balancing the needs of the unit and your individual desires.

All the best to you this assignment season!
