

Alternative 3

Alternative 3 involves acquisition of 21.75 acres of Terminal 46, and three small adjacent parcels, and the corresponding reconfiguration of Base facilities and infrastructure. This alternative would include acquisition of one existing berth at Terminal 46 and allow for development of one new berth (Pier 35E) on current Coast Guard property.

Please see the Information Sheet by clicking the button icon above this poster in the Virtual Room for a more detailed description of Alternative 3.
