Waterways Commerce Cutter

The Coast Guard's inland cutter fleet protects vital infrastructure and enables the free flow of commerce along the nation's marine highways, protecting American jobs and contributing to America's economic and energy security. The Coast Guard will recapitalize the capabilities of the service's current fleet of inland tenders and barges commissioned between 1944 and 1990 with three classes of Waterways Commerce Cutters. The WCC program plans to reach initial operational capability by fiscal year 2025 and full operational capability by fiscal year 2030.

Special Purpose Craft Boarding Team Delivery II

In coordination with the Navy, the Coast Guard is acquiring up to eight 11-meter naval special warfare rigid inflatable boats to support Maritime Security Response Team activities.

Future Great Lakes Icebreaker

The Coast Guard has begun program activities to acquire a new domestic heavy icebreaker to provide increased icebreaking capability and capacity on the Great Lakes. In addition to ensuring the Coast Guard has sufficient organic icebreaking capacity on the Great Lakes during the most severe winters, the future icebreaker will be capable of executing a broad scope of Coast Guard missions.
