Join us for the U.S. Coast Guard's monthly educational webinar, where we will be highlighting the Service's cybersecurity operations.

The webinar will provide an overview of the organization's cyberspace strategies and policies focusing on the Coast Guard's defensive actions and preventive measures taken to protect systems from cyber threats. CG-791 is responsible for obtaining cyberspace capabilities, competencies and capacity to meet operational requirements.

For additional informational about the webinar, send an email to openforbusiness@uscg.mil.
