

### **Coast Guard Inducts Its First HC-144B Into CG-LIMS**

The Coast Guard began supporting its first HC-144B Ocean Sentry, CGNR 2307, at the Aviation Training Center in Mobile, Alabama, with the service's new supply and maintenance management software, the Logistics Information Management System, July 2, 2015. The HC-144B is the second aircraft configuration to use the system; the HC-144A began using it in Jan. 2015. CG-LIMS will support all Coast Guard aircraft and nine boat classes by the end of 2018.
