

Coast Guard AMTs Master C-27J Propeller Maintenance

Coast Guard aviation maintenance technicians gained proficiency on Dowty propellers used on the C-27J medium range surveillance aircraft during specialized training held recently at the HC-27J Asset Project Office in Elizabeth City, North Carolina. Dowty Propellers technical representatives taught classroom and hangar deck sessions on tearing down, inspecting, rebuilding and troubleshooting the propellers to Coast Guard AMTs from the HC-27J APO and Air Station Sacramento, which will be the first C-27J air station. Participating in one of the sessions are, from left, Petty Officer 3rd Class Shannon Fieste of Air Station Sacramento, Kelly Winslow of the Aviation Logistics Center, Vitor Antunes of Dowty Propellers, Petty Officer 1st Class Eric Wood of the HC-27J APO, Petty Officer 2nd Class Allen Holloway of Air Station Sacramento, Ronald Ripple of Dowty Propellers and Petty Officer 2nd Class Ryan Jenkins of the HC-27J APO.
